

Download Basic Life Support Study Guide 2014

2. Summary of changes in basic life support and automated external defibrillation since the 2010 Guidelines. Guidelines 2015 highlights the critical importance of the interactions between the emergency medical dispatcher, the bystander who provides cardiopulmonary resuscitation (CPR) and the timely deployment of an automated external defibrillator (AED). Australian Resuscitation Council guidelines on basic and advanced life support are amended periodically. These changes are informed by recent evidence on best practice in resuscitation medicine. In December 2010, the latest guidelines were released for implementation in 2011. The latest Australian ...The purpose of this study is to examine whether supportive interactions on social networking sites mediate the influence of SNS use and the number of SNS friends on perceived social support, affect, sense of community, and life satisfaction. Licensure. States have three basic approaches to licensure: (1) licensing a single model of ADS--social, medical, or combined; (2) licensing two models--generally ADS and ADHS--under a single licensing category; and (3) licensing two or more different models under two or more licensing categories.
